

# NUKALA JAYA SURYA

Eluru-534001, AP, India +91-6281097949 [nukalajayasurya@gmail.com](mailto:nukalajayasurya@gmail.com) [LinkedIn](#) [Github](#)

## Career Objective

---

To secure a challenging entry-level position where I can apply my skills in Electronics and Communication Engineering, programming and problem-solving to contribute to organizational growth and enhance my technical expertise

## Education

---

### RamaChandra College Of Engineering

*Pursuing Bachelor of Technology in Electronics and Communication Engineering*

**June 2023 – May 2027**

*Eluru, Andhra Pradesh, India*

## Internships

---

- Finished internship at **BSNL — VIZAG from June 1st 2025 - July 1st 2025**
- Gained practical exposure to operation and maintenance of modern telecommunication networks.
- Worked with Optical Fiber Communication systems, understanding their role in national broadband infrastructure.
- Acquired knowledge of network fundamentals, hardware design, and VLSI concepts.
- Refined proficiency in network solutions, product development, and troubleshooting
- Strengthened ability to apply theoretical concepts to real-world telecom applications.

## Professional Skills

---

- **Programming Skills:** C, Python
- **Web technology:** HTML5, CSS3, JavaScript
- **Tools:** MULTISIM, MATLAB, TASM, ARDUINO
- **Soft Skills:** Communication skills, Team Management

## Projects:

---

- **Adaptive Solar Tracking System:** Designed a mechanical/electronic system to adjust solar panels for maximum efficiency by maintaining perpendicular alignment with sunlight.
- **Smart Waste Management:** Prototyped a smart bin using ultrasonic sensors for level detection and weight sensors (load cells) for capacity measurement, integrated with an Arduino microcontroller for real-time data processing.
- **IC 555 Timer Applications:** Implemented the 555 timer in astable mode to generate continuous square-wave pulses for oscillator applications.
- **Peerlix:** Developed a responsive web application using HTML, CSS, and JavaScript to enable collaborative skill sharing. Built dynamic features for adding/viewing user skills, enhancing frontend development, UI/UX design, and problem-solving skills.

## Certifications

---

- C Programming — Coursera
- Web Technology — Simplilearn
- Python Essentials-1,2 — Cisco Academy
- Machine Learning and Deep Learning — NPTEL
- Quantum Fundamentals Program — Amaravathi Quantum Valley, Qubitech and Wiser
- Certified in 24-Hour Hackathon — NRI Institute of Technology, Guntur, Andhra Pradesh, India — Web Technology
- Artificial Intelligence Fundamentals — IBM

## Achievements

---

- Awarded in Online quiz Competition from the Department of ECE, RCE
- Recognized in e-Quiz Contest on Space Technology — ISRO (RAC-S), MNIT Jaipur
- Appointed and Served as Volunteer in Election Committee — Department of ECE, RCE

## Workshops

---

- Attended PCB design and Fabrication workshop
- Engaged in IoT Session
